Step:1 Python 3.10.0 Idle Latest Version

The screenshot shows the Python 3.10.0 IDLE Shell window. The title bar reads "IDLE Shell 3.10.0". The menu bar includes "File", "Edit", "Shell", "Debug", "Options", "Window", and "Help". The shell displays the following text:

```
Python 3.10.0 (tags/v3.10.0:b494f59, Oct 4 2021, 19:00:18) [MSC v.1929 64 bit (AMD64)] on win32
Type "help", "copyright", "credits" or "license()" for more information.
>>> print('hello,world')
hello,world
>>> print('Hello,Ibm')
Hello,Ibm
>>>
```

The Windows taskbar is visible at the bottom, showing the Start button and several application icons. The system tray on the right indicates the language is "ENG IN" and the date is "18/11/2022".
